

AGENDA

# Failure Analysis for corrosion and leakage current

Training on request

## Day 1 //

Dr. Markus Meier Group Leader Reliability & Surfaces ZESTRON Europe	30 min. // Welcome
	- Company presentation and presentation of the programme - Introduction of participants - Your specific focus

Dr. Markus Meier	60 min. // Methods & tools for failure analysis
	- Typical failure mechanisms on electronic assemblies - Technique und methods for systematic approach of failures - Overview of common analytical procedures

30 min. // Break

Participants	60 min. // Practical experience – Part 1
	- Presentation of one failure case - Reflection and summary of the findings

Dr. Markus Meier	15 min. // Summary of Day 1 & Reflection on your specific focus
------------------	---

// End of Day 1

AGENDA

# Failure Analysis for corrosion and leakage current

Training on request

## Day 2 //

Dr. Markus Meier Group Leader Reliability & Surfaces ZESTRON Europe	15 min. // Reflection of Day 1
	- Learning objectives achieved - What needs to be considered when monitoring - Reflection on your specific focus
Participants	60 min. // Practical experience – Part 2
	- Presentation of another failure case - Reflection and summary of the findings
	15 min. // Break
Participants	60 min. // Practical experience – Part 3
	- Presentation of another failure case - Reflection and summary of the findings
Dr. Markus Meier Participants	15 min. // Summary of the Intensive Training & Reflection on your specific focus
	// End of the Event
